

Upbeat Energetic Engaging

Skye Island Band offers music lovers a lush environment of infectious **Smooth Jazz, Blues, R&B,** and spicy **Latin-Rock** flavored **Original Music** as featured on their forthcoming recording.

Set lists are sprinkled with covers by Grover Washington, Herbie Hancock, Stevie Wonder, Freddie Hubbard, and other selections depending upon your audience.

While the group performs mostly engaging instrumental music, **Skye Island** also features splashes of bluesy vocals. See our website shown below for video and audio samples.

Event Planners, Introducing the...

Skye Island Band, Often Described as a Cross Between Earl Klugh, Spyro Gyra, Weather Report, Rippingtons, & the Yellow Jackets

Who are the Seasoned Professional Musicians?

The current line up of this dynamic band highlights experienced performers.

Meet composer, keyboardist, and musical director **Michael Talley** who's enjoyed playing with the likes of Stevie Wonder, Eddie Money, Denis Coffey, and Earl Klugh.

Drummer, and master time keeper, **Paul Price** had an International #1 hit with Broken Yoyo Records.

Gardell Floyd holds down the low end and has studied with master bassists Lamont Johnson, and Chuck Rainy of Steely Dan fame.

Saxophonist **Robert Reeves** played national stages with Mitch Ryder, Tania Maria, Leslie Gore, the Temptations, Buddy Rich Band, and has won four Detroit Metro Music Awards.

Percussionist Roberto Warren has performed with a multitude of accomplished Motor City bands and artists including performances at the Ford Detroit Jazz Festival and the Toronto Forum Amphitheatre.

Skye Island started with original music in the late 90's attracting Metro Detroit's supremely talented musicians.

The bands founder and leader is composer, guitarist, vocalist, and producer **Daron Powers** known for his nationally obscure recording "Baseball Hero's" widely played on Detroit's WJR in the 80's. Seriously!

Powers and Talley form the compositional foundation. They met in Ann Arbor during the late 70's studying jazz, writing and performing. To see and hear samples, please visit our website today.
